WORK EXPERIENCE

RoyAndCo
03/2022- 03/2025
Senior Full stack Developer

- Developed and implemented front-end solutions for web applications using modern JavaScript frameworks (Svelte, Vue, React).
- Collaborated with the team to design new features and enhancements of existing systems.
- Created reusable components that can be used across multiple projects as well as optimized code for performance in large scale applications.
- Used Git version control system to manage source code changes and collaborated with other developers on tasks when needed.
- Participated in architectural review meetings regarding application development practices and participated in technical discussions about implementation details of various features or fixes.

WebtrixPro
04/2018 - 02/2022
Senior Frontend developer

- Worked with a team of developers to create new features for the company's flagship product
- Collaborated with designers and other front end developers on UI/UX best practices, resulting in improved user experience
- Developed responsive web applications using HTML5, CSS3, JavaScript (jQuery), PHP and MySQL
- Improved existing codebase by refactoring legacy jQuery plugins into modern ES6+ JavaScript components
- Created reusable React components that were easily testable and could be shared across projects

The Page X
06/2015 - 03/2018
Full Stack Developer

- Developed and maintained 20+ front-ends focused on user experience.
- Wrote front-end code, back-end code, integrated 4+ with frameworks and APIs, and utilized multiple CLI tools and configuration GUI's.
- Created and updated 4 websites with a focus on creating an exceptional user experience.
- Created informative and effective documentation, reports, and inline comments on 100% of code/work accomplished.
- Worked with 30+ key stakeholders to design complex solutions, and led from inception to production.
